

SIZING GUIDE

A BETTER FIT STARTS HERE

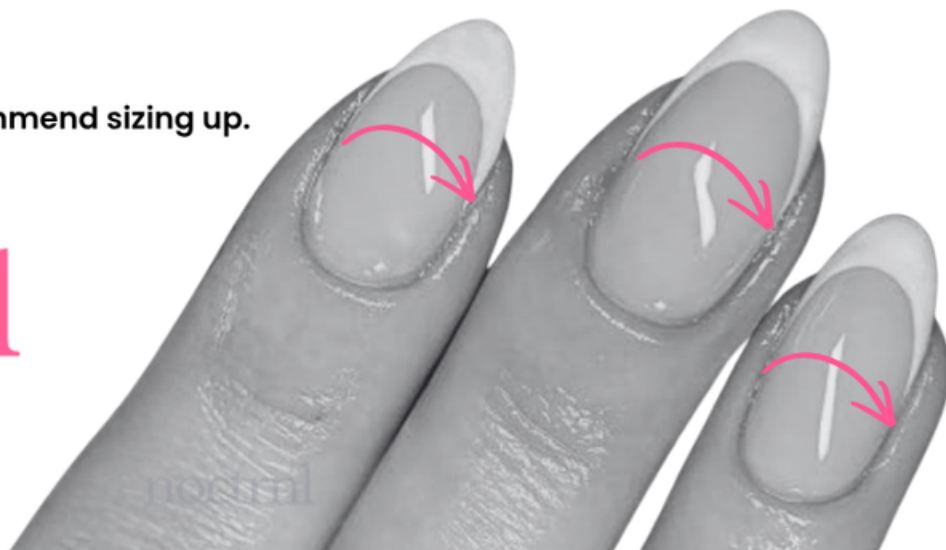

HOW TO MEASURE

Measure the widest part of each natural nail from sidewall to sidewall using the millimeter (mm) side of a soft measuring tape.

Record the measurement for each nail, then compare your measurements to the chart on next page to find your size.

Between sizes? We always recommend sizing up.

noctrnl

NAIL MEASURING CHART

SIZE	WIDTH (MM)
0	11.9 mm
1	10.9 mm
2	10.4 mm
3	9.9 mm
4	9.4 mm

Don't see a preset size that works for you?

Choose 'Custom Fit' during checkout and enter your measurements in the notes section. Once you place a custom size order on my website with a full name and email attached, I will keep track of your nail sizes for easier ordering in the future. If you have any issues with sizing or need to update your sizing, please reach out so I can help fix it/update my system!

Need help with measuring? Send me:

- An overhead photo of all four fingers on both sides
- A separate overhead photo of both thumbs
- Include a US coin in both pictures (penny, nickel, etc.) for scale.

We'll size them for you at no extra charge.

Custom-sized sets are made specifically for you and cannot be refunded or exchanged.
